Rejuvenation Anti Aging Therapies

At Femiint Esthetics, We believe in graceful aging, which adds great values to our experiences & wisdom learnt, which does not necessarily imply that we have to look aged too. Along with right skin care regime consultation, we use the latest, innovative, non invasive treatments to combat the signs of aging that give you visibly younger, healthy and radiant skin.

Botox:

Botox helps you look younger and softer if you have furrow between eyebrows, horizontal wrinkles on your forehead, crow's feet around your eyes, a constant angry look or appear stern or too serious or you don't like the way you look in pictures or if you have excessive underarm sweating.

Fillers:

Filler restores volume and fullness of the skin to correct moderate to severe facial wrinkles and folds, such as nasolabial folds and for contouring of the cheeks, chin, nose & lips thus making you look younger.

Anti-ageing therapies:

Innovative skin tightening lasers - Therma RF & Thermage, Non invasive thread lift, photo rejuvenation and medi-facial treatments can help you stop the clock without going under the knife.

Hair

It is normal to shed some hair each day as part of the Hair growth cycle. However, some people may experience excessive hair loss that need to be treated as soon as possible. It can be in the form of excessive hair fall, hair thinning or baldness due to various causes.

Effective Treatments

- * Platelet derived growth factors-PRP
- * Plant derived stem cells
- * Cocktail multi-nutrient & cyclical vitamin therapy
- * FUE Hair transplantation
